HELLO.

I'm Baylie Leonard! I have always been fascinated by photography and have always had an eye for it. I started really being interested in the art of photography my junior year of high school when I got accepted into yearbook. That is the year I got my first DSLR camera. But, it wasn't until this year that I really fully understood the camera and its settings. My favorite subject to photography is nature and inanimate objects. I love to capture their essence and try to capture them in new perspectives. I am excited for this new adventure in photography and to grow my skills as a photographer.

THE MEN AND WOMEN OF BANNACK

REMNANTS.

The remnants of those that once lived here. It fascinates me to think about the people that roamed this beautiful little city. Bannack is the name. It was founded in 1862 when gold was discovered in Grasshopper creek nearby. Many people fled their responsibilities and homes in hope of striking it big. Through out the years the gold dwindled and so did the population. By 1950 Bannack was declared a state park and in 1970 there was no longer anyone permanently living there anymore.

**UP TO
NO GOOD**

CATCH.

Fly fishing is an angling method in which an artificial “fly” is used to catch fish. The fly is cast using a fly rod, reel, and specialized weighted line. Casting a nearly weightless fly or “lure” requires casting techniques significantly different from other forms of casting.

WALLPAPER

Wallpaper is a kind of material used to cover and decorate the interior walls of homes, offices, cafes, government buildings, museums, post offices, and other buildings; it is one aspect of interior decoration. It is usually sold in rolls and is put onto a wall using wallpaper paste.

**THE OLD
THE RUSTY**

CASCADE

Cascade is a rural city in and the county seat of Valley County, Idaho, United States, in the west central part of the state. The population was 939 at the 2010 census, down from 997 in 2000. This little city has beautiful scenery wherever you go.
